

Smarter *equipment.*

The right automation for every composite.

Automated Dynamics is the right company to meet your specific fiber placement or tape laying equipment needs. We design and build robotic work cells allowing our customers to manufacture composite structures.

- **Smart size.** Our product line ranges from small lab scale models to full size production equipment – making it an appropriate solution for every workspace.
- **Smart results.** Unlike other companies, we have equipment at the ready for our clients. Our state-of-the-art facility has many machines available for immediate demonstration, prototyping or development.
- **Smart choice.** Automated Dynamics' tailored automation provides a rapid return-on-investment.

Industries served:

- **Aerospace/Defense**
- **Oil and gas**
- **Semi-conductor**
- **Commercial aviation**
- **Industrial**
